Good day,

I am sorry to hear that you are having difficulties, but I must address two concerns:

1. I raised concerns about your "paying guest or lodger" - please address this as soon as possible. I understand you have contacted a lawyer in Geelong. You should make sure that your family is fully informed about their responsibilities in Australia - 18 to 21 and 1993.

2. I noted that you had recently arrived when you and the guest had an accident. It is possible that the guest was involved in a homosexual act. A letter, not in my possession, but which could prove troublesome, is to be returned.

To get back to me:

Suggested outcome: live in Geelong, soon - accepted, other options rejected by me and you.

Sincerely,
