Dear John,

I am writing to you about my position when I cease to be Housemaster of Allen at the end of 1991.

I would, if at all possible, like to remain in my current house. I have spent quite a lot of money on the security system and on fittings and furnishings and, if I were able to stay, I would like to spend some more money both inside and outside the house.

The house originally designated for the Allen Housemaster is currently occupied by the Johns - not that I would suggest that they were moved - and presumably the next appointee to Allen could live anywhere reasonably close (like DAE).

○ Your response to this request will have a large bearing on whether I buy and perhaps live outside the school. Thus I need to plan ahead!

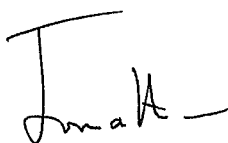

Secondly, I would like to take some leave during 1982. Ideally I would like to take either the first half of term 3, or, if it suited you better, the whole of term 3. I would prefer the former as it would not involve any loss of salary.

whole term

I would also like you to bear in mind that I am still very keen to help with the welfare of overseas' studnets. This would be far easier when I was not a housemaster.

Perhaps we could discuss the above sometime during the first half of next term.

Yours sincerely,

○ 

J.F.C.HARVEY.
