The Master of Corio.

Re: BIJ [redacted] 84.

For many years I have invited students, with their housemasters' permission, to stay in my house to look after my dog when I am away. I have found that the system has worked excellently and my trust has never been abused.

This last weekend was one of such occasions. After my afternoon meetings with Thai International & Singapore Airlines I caught the 6.25 pm flight to Adelaide and I returned to Corio at 6.30 am this morning.

I had told BIJ [redacted] as I had told others in the past, that I did not mind if he had a glass of wine or a glass of beer with his evening meal. I did stress that there should be no one else around and on no account was anyone else to be given a drink. I felt that this was a reasonable and civilized way for me to behave. I have never had this abused.
