

## Mandatory Reporting

### A Footnote from Di Pearce

Di has spoken to Health & Community Services about their right to interview a student on school premises. They believe they have a legal right to do this.

If the School accepts this view then parents should be notified that, as a part of mandatory reporting, parents should know that, if a report is made either by a member of the school community or outside the school community, the normal procedure is for interviews to be held at the school of the child concerned. This is deemed to be in the best interests of the child.
