

05.09.2003

AWH /ROLLESTON

P/C to AWH re: his complaint against Dr R. Advised I was allocated officer as Friday 12.09.2003 – no date yet for proposed I/V. Needed to clarify whether he had spoken w/ police/intended to do so. Mr AWH advised that he hadn't considered police & thought statute of limitations had expired. Advised that my understanding of Crimes Act was that no statute of limitations existed for child sexual assault matters as alleged offender was still alive.

Mr AWH said that he hadn't considered ct to police & wasn't after revenge/compensation but wanted to ensure Dr R wasn't still practicing & "doing same to other chn". Advised that he may still be on medical register – unknown if he is still practicing. Also noted that if he was considering comp^t. To police – would need to do this ASAP as they would not appreciate HCCC commencing its investigation 1st.

Mr AWH has friend in local police – will discuss w/ him & let HCCC know outcome. Mr AWH also advised that his brother has recently moved to REDACTED – is willing to meet w/ HCCC re s/mt. He will contact his brother & provide my contact details to him
