

File Note

Name: Rob Beetson to Ruth Robinson

Date: 11 January 2007

Matter: Dr Rolleston

Matter No: New Complaint

Ruth

This letter from the NSWMB was handed to me today by Angela O'Gorman. She came across it in her mail this week. She has been on leave for three weeks. I presume it was given to Angela as she has a current investigation into Dr John Rolleston.

This appears to be a brand new complaint against Dr Rolleston. The complainant is the NSW Medical Board and it concerns an investigation closed down in 2001. That matter was terminated with no further action.

The matter needs to be brought to the Commissioner's attention, logged as a new complaint and assessed although as the Board requires it to be investigated I presume that will be the case. My team already has an investigation into the conduct of Dr Rolleston so feel free to return it to me following CAT's processing.
