

ROLLESTON
(see file no.
on attached
checklist)

Michael,

All Rolleston files now allocated to you. I have reviewed & as Dr R is still on register (suspended), I recommend investigation[?] before a tribunal & that all matters be joined. I note that a number of matters were not included in the criminal proceedings & need to consider whether they should be included in disciplinary matters – Probably [illegible] do so only with conviction.

Do not need [illegible] [illegible] but do need:

1. Consult letter re all matter by 30/5/12, &
2. Draft complaint by 27/6/12

[signed] 3.4.12

Date Referred to investigations:		09/01047 &
Date of Return to DP:		09/01529
<hr/>		

Determination s90B(1)(a)

- * Consider action of matters set out in s90c of Act,
ie:
- a) Protection of the health and safety of the public,
 - b) Seriousness of the alleged conduct the subject of the complaint
 - c) The likelihood of proving the alleged conduct
 - d) Any submission made under s40 by the health practitioner concerned

DETERMINATION

-- ~~Criminal convictions.~~ Complaints with Commission for very long time. Denied for considerable time & ultimate plea to complaints.

Convicted & imprisoned until 23 December 2012.

-- Very serious matters involving a substantial number of victims who were patients of Dr Rolleston – Clearly in the practice of medicine.

I note that Dr Rolleston solicitors have indicated that prosecution should not proceed as it is not warranted given Dr R will not seek his renewal of regn when due-

Stat Dr will not seek renewal of regn when due –

Stat dec will not week renewal –

[illegible] vonditions/[illegible] – little

Threat to [illegible] of public.

-all noted but still on AHPRA register as a suspended practitioner.

Note serious nature of conduct – need for [illegible] +

fact should not be on register given [illegible] in jail (2 [illegible]) +

not a suitable person for registration.

∴ In all the circumstances, I am of the view that these matters should be prosecuted before a medical tribunal.

[Signed]
