Hi Hazel

Trust all is well.

The issue over Frank and AHG [REDACTED] has been picked up by Philip Powell and is circulating the world. We are still trying to substantiate some critical facts from AHG [REDACTED] because of some major inconsistencies about the alleged offence so we can rule it bona fide or not. However, rather than give us these details AHG [REDACTED] has decided to go public on the email to everyone. The only reason they haven't contacted Frank is they know he is ill and the NZ police have told them that although sympathetic they advised that due to WFH's age, health and time away from NZ it is unlikely that they could extradite him to face criminal charges. So we are still their main target. That's life.

Although this is unpleasant I have to work to some sought of closure. They are asking for three things, possibly more, but these three I am able to identify: 1) money, 2) publicity of the sin, and 3) an apology from WFH. With regard to the latter, is WFH able to give such and if not did you get a medical report to substantiate that?

God is faithful. I was reflecting the other day, while dealing with a dozen serious problems among our minister, and I questioned in my heart to God "why would you want this church up there?" My spirit came alive again in the immensity of his love and grace. I couldn't real grasp it as some of the problems a "spew up jobs" but God is certainly impressed by what Jesus did on the cross. So, from a simple kiwi, HE IS GOOD. I'M HERE. SO, GET ON WITH IT.
