Dear Ms Chen

I would like a minimal reply in response to the enclosed letter please.

I am hopeful that it can be something along the lines of; "the history covers the times at Sandy Bay and provides a fair and accurate picture subject to the normal lines of defamation and liability of that time at the School. I will pass your letter on to the Historian".

My reason for suggesting that the letter be passed on to the Historian is to give the sense that I am "doing something". It is my view that there are no allegations from the writer.

Yours sincerely

W D Toppin
