FILE NO: HUTCHINS AND AOA

DATE: 9 APRIL 2002

Attending Lyn Peach explained that I had been away until today and consequently had not received her e-mail. She said that Bill Toppin is on study leave. I explained that I thought that the chance of AOA establishing a claim now was very remote considering the limitation period. I said that it was possible for someone who had been abused many years ago to sue now if they can show that any damage or loss did not commence until recently. I said this was not the case with AOA, however, as he had been agitating the matter for at least 6 years.
