Dear Pamela,

At what point is the school going to begin making apologies to old boys for the absolute humiliation surrounding the recent events in the newspapers?

Having boarded at the school for six years myself, I am confident some of the matters in question were brought to the schools attention, yet there was no action at that time.

The time has come whereby KGS needs to do more explaining and less promoting in the interests of holding on to what small fragment of respect remains.

Perhaps you could forward this email on to the KGS Public Relations department.

Regards,  
 ATQ
