REDACTED

Dear BQQ

Thank you for your phone call to Kerryn Hurd on 5 June. Your account of your experiences has helped us to piece together a picture of Lynch's activities as counsellor at BGS.

Thankfully many of the boys who saw Lynch did not have an inappropriate encounter, or as seems to have been your situation, report only a minor inappropriateness. It has also been interesting to hear from you and others that some of the more orthodox counselling administered by Lynch was perceived as helpful.

I am pleased to hear that you still feel proud of your association with the School, although I am very sorry to hear that you have experienced some difficult times of late.

I recall that we met in my early days in Brisbane, when REDACTED was here and when, of course, I knew your parents through your mother's work with the Auxiliary. Please pass on my best wishes to them all.

I do hope that things are on the improve for you and that the future is going to be good.

Thank you again for your help in contacting us.

Yours sincerely

*P. G. Lennox*
