

(4) Record of Phone Call with Bob McGlennon - 7-8-97  
 between 1-40 p.m. - 3-07 pm (Tel (08) 85387064)

The overall thrust of the conversation was that Bob would like a reference and a letter from the CEO giving a written assurance releasing Bob & Valerie from any legal proceedings arising from information that Bob & Valerie supplied to Exec Managers etc during the investigation instigated by the CEO. However in respect to any lay of claims by Bob against ACS, ACS would reserve the right to defend itself. In exchange for this he would not advise his solicitor of anything he knew other than those things relating to his claim.

After a lot of general conversation and alluding to something that was bothering him, he finally read me extracts from notes that he had made from three phone calls from an unidentified male phone caller. My notes on call 1 are brief as I did not realise what he was telling me at first.

Phone Call 1: I isolate your thoughts clearly to enable you to identify a deal with your adversary

Phone Call 2: Re ACS - expect but do not fear a hardening reaction from your adversary - the investigation was a cover to indict lower levels of management particularly Bob Brandenburg. Your revelations reflected adversely on Exec Managers & the financial situation reflects their years of financial mismanagement. Anticipate this resistance - prepare yourself well - the outcome will be as you hope.

Phone call 3: You are dealing with what you consider to be your injustices but in the process injustices to many other people will be dealt with. It is all part of the crumbling of this religious institution that may have been of religious origins that have perpetuated injustices or worse <sup>wide</sup> on the banner of God
