Dear Sir/ Madam,

Bobbie Welch was brought to see me in April 1995. Her mother, Maree Welch, expressed her concern that Bobbie was claiming to have been sexually abused by a male care worker employed by the Gold Coast Family Support Group.

Maree asked me whether I should examine Bobbie, but I declined, as I do not have any expertise in diagnosing sexual abuse of children, and Maree was planning to report the claim to the Police, who would arrange expert examination by a medical member of the SCAN team.

Unfortunately, the written record of the consultation is unable to be found, but there is no doubt that the incident was reported to me.

Medicare records confirm that Bobbie was seen by me on 6/4 1995 and 11/4 1995

Yours Sincerely

Dr. Dianne Moses

*Bobbie taken to Dr. D. Moses 11-4-95
re suspected sexual molestation
Told Dr Moses I would be taking her
to Police Did not send to School
7th April no Doctor appointment
Absent school 11-4-95.*
