Family Resource

Having received your application to renew membership to Gold Coast Family Support Group today, the Executive of GCFSG wish to advise you that:

- In accordance with item 7 (1) of our Constitution, your application for membership will be considered by the management Committee at the next meeting in October, along with all other memberships and you will be advised as to your admission or rejection of membership in writing
- Having received an invitation to tonight's AGM, be warned that:
  - Given the difficulties which have occurred as a result of your actions and statements which are injurious and prejudicial to the service and given that you have received a number of solicitors letters confirming that to persist in your defamatory remarks in regards to FSG staff and committee would result in a Supreme Court proceedings to be issued against you, it would be inappropriate for you to raise any issues or any issues relating to the matter that has previously been dealt with and if you do so, you will be removed from the meeting.
- You have previously been told that if you continue to make defamatory statements or to act in a way that is not in the best interests of FSG, the Supreme Court proceedings will be brought against you. This will apply in particular in tonight's meeting.
