5. Details of the allegations(s)

Members of the NSW Police arrived at the School, and charged the alleged person. He is now in custody, and school files pertaining to the charges were produced by the school in response to a warrant. The School assumes that there is more than one incident, but that information in a definitive sense is with the Police. The school will provide details when submitting Part B.

The School understands that the charges are of a sexual nature, possibly sexual assault.

Please note that a video, allegedly shown to students in 1988, was delivered to the School in late 2007. On the advice of the Ombudsman, this, and relevant information, was taken to Beth Cullen of the Sex Crimes Unit at Parramatta. This is now with the Police.
