

240134 FILE NOTE (2)19 MARCH 2004

MATTER: ADRIAN NISBETT

CLIENT: KNOX GRAMMAR SCHOOL

John Weeks provided me with two, blue A4 folders containing records compiled by Ian Paterson. Ian Paterson had apparently identified these on a recent visit to the School.

One folder contains records relating to the apparent collision between two students' cars and a subsequent fight.

There are approximately 100 pages of students' statements (witnesses), plus a letter from one student's father and a response from Ian Paterson.

The second folder contained:

- Termination, deed of release etc. for a teacher.
- Papers relating to applications for the position of Deputy Headmaster.
- Papers relating to re-appointment of the Chaplain.
- Papers relating to resignation of a council Member.
- Correspondence re Council issues.
- Accident / Incident Reports
- Report on a girl being intoxicated / hospitalised after a school dance.
- Claim for damage to a car (cricket ball).
- Claim for student assaulted by a student (witness statements and letters from solicitors)
- Papers relating to burns to student at a school camp.
- A single typed page with a reference to 'hotbed of homosexuality' and reference to a missing file. This page was copied.
- Letter from a parent.
- Incident Report (damaged finger at a swimming carnival).
- Issues around a TV program.
- Subpoena for documents in a worker's compensation case.
- Documents re a cut eye.

The documents were all grouped according to the subject matter and tabbed and labelled so that the sections of the folder were identified.
