

Questions re: File Notes/Incident Report, Craig Treloar

Fake cameras

Did Bob Thomas give permission for their use?

Had parents been given a note about cameras in the room?

Had the issue of theft been raised at any staff meetings or with parents (via Newsletter)?

Use of non-school Personal Computer

Could there be any photos that might have been used in a school publication i.e. pictures of prize winners? (had the School sent out a form requesting permission to have photos of their children taken?)

Did his computer then have email access! Could photos of children have been posted on the internet?

Does a Prep School Interim Report indicate children at risk?

Changing in Classrooms

If boys are changing in corridors are they not exposed to public view?

Are their cameras outside? (He wanted cameras inside!)

Child Protection Manual

Check to see if any info is missing from Child Protection Manual?
