

16th August, 1977

Mr. Roger James,
REDACTED

Dear Mr. James,

This will formally state my concern with your role of teacher. I am distressed by the apparent lack of organization in your classroom, and in your office. The disorder is not conducive to good habits on the part of boys. I am extremely concerned by your persistent refusal to meet deadlines set by your Subject Master.

Unless we have your complete co-operation in righting these matters, I would suggest that the Knox environment is not a suitable one for you. I will personally check your laboratory next term, regularly.

Yours sincerely,

I. Paterson.

c.c. Mr. G. Copeland
