

Notes on Nov 2 meeting

This letter was in response to my conversation with [ARH] Re - his getting too close to the boys. I did not express the concern as my belief But the opinion of others.

evidence: too many photos he took of the boys
generally getting too close.

My PURPOSE

- To alert [ARH] to the perception of his own familiarity to the Boys
- That his cover had the question mark of this issue over it (background); no hard evidence; But a persistent rumour.

[ARH]

responded well. He was angry about the unfairness of the rumours and that they had been behind his back. He flattered me for bringing the issue to his attention; said he would be proactive to quell the rumours - one strategy by directly confronting the source directly to be talking another & in relationships.
