

18/9/92

AWG [redacted] ([redacted]) telephoned concerning Dr Rolleston. He had heard Dr Rolleston was seeking to be re-registered and wished to make a complaint against him. He said 17 years ago when he was 14 he attended Dr Rolleston his family doctor for a sore throat. He said Dr Rolleston wanted a semen sample and assisted him to do it. He believed that this other complaint had been made of this nature against Dr Rolleston.

I advised Mr AWG [redacted] to put his complaint in writing. I further advised that Dr Rolleston was conditionally registered.
