comments: I seriously hope the Royal Commission re Institutional Response To Sexual Child Abuse makes changes to the pathetic information sites like this one. Seriously...read it and think in a practical manner...it is under "Quick Links"...why not post the relevant info on that big empty white page and make access to the information "Quick"? <http://www.mcnsw.org.au/page/36/doctors--performance--conduct---health/complaints-and-notifications/how-to-make-a-complaint/>
