Subject: ^{CLC} matter.

Dear Andrew,

Just confirming with you Andrew Mansfield and I met again with ^{CLC} this morning. His transition back to the House went well last night. Several boys approached him to welcome him back and to offer support. I have prepared a note summarizing the meeting and a follow up phone conversation I had with his mother which went well.

In a nut shell, ^{CLC} wants to normalize things as quickly as possible. He remained conflicted as to whether ^{DFE} had actually performed the deed on the night in question. There was some inconsistencies in his account this morning from what he told us last week. eg he was woken by the startled comments from ^{REDACTED} rather than the other way around. Either way however, ^{CLC} is very disappointed that ^{DFE} has as a minimum left the impression/perception that he had masturbated on him. Its this impression which has resulted in several months of intermittent harassment and teasing from a range of other boys both in the day and boarding communities. It may be this intentional action or inaction from ^{DFE} is what we respond to..?

No doubt we can all talk further on your return and decide on a suitable follow up with ^{DFE}. In the meantime Andrew will monitor progress at the House level.

All the best.

Greg
