Information received re: Kings

Kings and Knox attend Cadet Camp, [REDACTED] each year. They last attended between 4th April 2014 and 11th April 2014 (this was the date of the Knox camp). Cadet camp is run by Kings school and involves Defence Force (they would have about 1% contribution at camp).

The officer in charge of Cadets is Mr Andrew Mansfield (9683 8590). He is currently employed with the Kings School (ex Knox). His details can be obtained from the internet via a Google search.

At Cadet Camp:

- There is between 600 – 700 students in attendance. From Year 8 – Year 12.
- Knox is supervised by teachers at night however Kings are supervised by senior students (Year 11 or Year 12).
- At night, Kings staff are transported back to school? And the students are not supervised at night by staff
- It is alleged that students have ejaculated on each other; part of a "game" or "ritual".
- This information is known at the school among staff at Kings and Knox
- Alleged cover up; incident was reported as being "shampoo" instead of semen

Mr Mansfield is said to be aware of the alleged incident. This information has become public knowledge between students at Kings and Knox. Apparently Mr Mansfield did make an incident report of this; these records would be kept at the Kings School. The incident would not have been reported to Defence.

I completed checks on COPS for [REDACTED] Army Base; nil records were located of said incident.
