THE ROYAL NORTH SHORE HOSPITAL OF SYDNEY	<p>PAEDIATRICS 12 MAY 1967</p> <p>WEIGHT: 28.2kg[?] Dr Davis</p> <p style="text-align: right;">11 9/12</p> <p>Missed 4 days school → Episodes</p> <p>On Mondays → Trouble at weekend</p> <p>Playing [Illegible]</p> <p>(1) [Illegible]</p> <p>(2) See Xmas holidays</p> <p>The [Illegible] commenced with play therapy at the suggestion of Dr Spencer. Terry does not have much insight into the cause of the feelings towards his sister if play therapy does not do the trick some other therapy might. He does seem less aggressive to her on the whole and his asthma does not seem as important to [Illegible].</p> <p style="text-align: right;">Simpson 14-8-67</p> <p>He reports he is free of asthma now and has been for the last 3 months. Feels more aggressive to his mother [illegible] feels threatened at this</p> <p style="text-align: right;">Simpson 22-10-67</p>

THE ROYAL NORTH SHORE HOSPITAL OF SYDNEY

Seen again 5th December. No signs of asthma bringing[?]
out more feeling towards mother and younger sibling
to continue in therapy. Appears to be going well

Paediatrics(stamped) 15 Dec 1967 Dr Davis

Paediatrics(stamped) 15 Jan 1968 Dr Davis

Weight 32kgs 12½ years

No chest troubles 6 8/12 Mother

Has taken him off his [illegible]

[illegible]

[illegible]

JRD[?]

Continues to be well. Displacemen [illegible]

seem largely overcome and Terry no longer

Needs to be ill[?]. To be seen once or twice

this year for a routine check
