Offences**

7. During school years Guy was very popular with his peers. He was good friends with REDACTED REDACTED ASE REDACTED REDACTED and REDACTED that I can recall. However he did have many more friends. Guy seemed to have more friends than the rest of our children.
8. During Guy's schooling, his reports were fine. He was never top of the class but he never failed. He was a good student overall. Guy writes beautiful poems and letters. Towards the end of his schooling, Guy never put his best into his school work and could not fully understand why.
9. During the junior school I recall some of the teachers that taught Guy. His third grade teacher was named Andrew (I don't recall his surname) and I think his fifth grade teacher was Barrie STEWART. Andrew appeared a good teacher that settled Guy and put his mind to his school work. I don't remember Barrie STEWART a great deal but I recall he was involved in all the reviews which were school concerts.
10. I remember one day when we had moved to Cleveland Street Wahroonga. We lived opposite the Prep School. Guy was on his push bike and I think it was a Sunday. I noticed that Guy was returning home from the direction of the school. When Guy arrived home I asked Guy why he had been in the school. Guy basically told me that he had been to see Mr TRELOAR. I knew the name TRELOAR but I did not have much to do with TRELOAR. I told Guy that he was not to go to the school area or room that TRELOAR was in because it was a Sunday and you should not be in the grounds.
11. When Guy was a student at the senior school he was a good student apart from one occasion that Robert and I was made aware of. It would have been sometime in 1987 and at the time Dr Ian PATERSEN was the Head Master however he was on leave. Mr TURBULL was the deputy head and was acting on behalf of the Head Master. Mr TURNBULL contacted me and informed me that Guy had caused considerable damage to the windows and lights to a building within the school grounds. I do not recall the exact building. Robert and I were shocked at this report, actually speechless.
12. Robert and I attended the school and had a meeting with Mr TURNBULL. We could offer no explanation for Guy's actions. Mr TURNBULL offered school counselling by Mrs COOK and he

also advised external counselling. We arranged external counselling which was in Turramurra. We took the opportunity of counselling because this behaviour was quite contradictory to Guy's normal behaviour. When Robert and I spoke with Guy in relation to what he had done, he basically said he just "flipped". We gave support to Guy along with the school as this behaviour was not Guy.

13. From this incident and up until Guy graduated in 1991, Guy appeared to give up all interest in school sport. His detention increased considerably. Guy did enough work to get through his Higher School Certificate.
14. When Guy left School in 1991 he gained employment in the Retail Business and then became a driver and storeman for a whole sale grocery business.
15. In June 1997 the whole family attended EWAN Review within the grounds of Knox Grammar Preparatory school. EWAN Review was where year eleven (11) and twelve (12) students participate in concerts and our youngest son Andrew was participating. It was week night that this concert was on and it would have completed approximately 9.00 to 9.30pm. At the time we were residing in REDAC Street as we were in the process of moving. As we were walking out at the end of the concert, we would have got out the school gates and onto REDAC Street. At this point we saw what we know now as being a panic attack. To explain Guy's actions we saw Guy explode. He started to throw his hands around stating that he had to go. He repeatedly kept saying that he had to go. His body language was somebody that was in a total panic. Guy left running. I don't recall what direction Guy left.
16. We all had just been having fun watching a family member, the atmosphere was great and then all of a sudden Guy's behaviour snapped.
17. Guy would have returned home a couple of hours later and appeared a lot calmer. Guy then had a constant string of panic attacks. Guy left home and had moved in with his girlfriend at the time, for over approximately five (5) or more years he suffered panic attacks. The relationship parted from the strain of Guy's panic attacks.
18. Guy saw a number psychologists and psychiatrists over the years for his panic attacks, anxiety and depression. Guy met his wife Renee about two (2) years ago and she is very understanding and supportive of Guy. Renee has been his rock through this illness of Guy's. I

am aware that Guy is currently under a psychiatrist but I have not been involved since Guy met Renee.

19. Robert and I currently reside in Mudgee. It was the long week end in January when all the family gathered at our place in Mudgee. We all had a big dinner outside and I recall Guy gathering the family around the dining room table inside. I recall Guy saying words to the effect of, "I have been to the Police to report matters that occurred at school many years ago" Guy then took us through the events of what occurred to him by TRELOAR. Guy described to the family that he was masturbated, fondled and video recorded naked by TRELOAR. He explained to us how TRELOAR got him into the position he was in. I think Barrie STEWART might have been mentioned on that night but not in depth. I was just in so much shock and confused.
20. My immediate reaction was shock horror that applies to the whole family. I think that I got up and went into the kitchen in shock. My son in law Brian LANGWORTH who has just recently graduated as a psychologist was there also. I was told at this time that Guy had consulted Brian a short time earlier. Brian gave Robert and I paperwork that he had on Historic Sexual Assault cases which basically talked about grooming. Robert and I read this paperwork which took our minds of the subject of Guy and it gave us a better understanding of how Guy was trapped into this situation.
21. From this time the whole family gave Guy full support which was a huge focus at this stage and thanking Renee for the support she gave Guy when he discussed the matter with her. After being told this information, Robert and I immediately felt that this event must have been the trigger for Guys behaviour change and twenty (20) years of panic attacks.
22. In the first week of May 2009, Constable Amber STEPHENS from Hornsby police contacted me in relation to providing police with a statement in relation to my son Guy LAMOND. Arrangements were made for Friday the 15<sup>th</sup> May 2009 at 12.00 mid day.
23. On the 15<sup>th</sup> May 2009 I attended Hornsby Police Station along with my husband Robert as support and provided Plain Clothes Senior Constable Annette CAMPBELL with this statement.
