7. Later that same evening my family and Simon Jacobs went back to our hotel and later went to bed. I remember that there were two single beds in the room I was staying with Simon. During the night, I cannot remember whether it was later that night or early the next morning, Simon asked if I would get into bed with him. He said it would be alright. I then got out of my bed and got into bed with him. I was wearing flannel pyjamas. When I got into Simon's bed he was lying on his back. I laid on top of Simon on my back. Simon put his hand down the front of my pyjamas. I told him not to, he said words to the effect, "It will be alright". He took hold of my penis and worked his hand up and down in masturbatory fashion. I remember that it was hurting me. As a result of being masturbated I got an erection. I cannot remember how long he masturbated me but I do remember my penis was sore and swollen with a small cut on the left side the next day.

8. I did not say anything about what had occurred during the night to my parents the next morning because at that stage I felt that they had wanted Simon to masturbate me.

9. From this time on over the next four years Simon would at least twice a month would masturbate me or have anal intercourse with me. This happened at various locations but mostly in his car and usually after attending C.E.B.S. of a Friday night when he was driving me home.

10. My next clear recollection of being masturbated by Simon was the long weekend in October, 1978. On this weekend my mother, father, sister, a Mrs REDACTED Mrs RED's son REDACTED and three of REDACTED's friends and Simon Jacob went to Berima for the weekend. We all stayed on a property out side of Berima in a converted school or church.

11. On two separate occasions this weekend Simon and myself went for a walk into the bush, we would walk for about fifteen minutes. Simon made me drop my pants and he masturbated me and on both occasions I got an erection but did not ejaculate. I remember it was a sunny day on both days and we went to the same area of bush each time he masturbated me. I also remember that there was a big sloping rock which I leaned back against whilst Simon masturbated me.

12. The next clear recollection I have of Simon having sex with me was late in January or early February, 1979. I remember this occasion because at the time I was about to start year 7 at REDACTED School. The public schools had just returned and the private schools had an extra weeks holiday.

13. At this time I went to a barbers shop on Mona Vale Road, near the St Ives shopping centre. I had a hair cut in preparation for starting at REDACTED School. After I had the hair cut I went to the St Ives shopping square. Whilst at the shopping square I had a chance meeting with Simon. Simon invited me to his parents house at REDACTED for lunch. We both then went to the village cake shop where Simon purchased some meat pies or sausage rolls, a 600mm carton of strawberry milk and a 600mm carton of chocolate milk. We then went back to Simon's parents house.

14. When we arrived at Simon's parent house his parents were not at home. We ate our lunch in the kitchen. After lunch Simon asked me to have a shower. We both went down stairs to a shower situated off a laundry. Simon was in the room as I had a shower. He then told me that he was going to shave off my pubic hairs because he said it was cleaner. I don't remember what I said at this stage. Simon asked me to come to the edge of the shower and I remember he shave my pubic hairs with a disposable razor and Palmolive foam shaving cream. I remember that during the shower the showers pressure was erratic and hard to adjust. It would either gold cold or real hot.

15. After the shower Simon asked me to go to his bedroom. We went to his bedroom, I was still naked after the shower, when in the bedroom he said to me, "I'll do your backside". I laid on the bed. Simon then place some sort of cream or lubricant around my anus. He then laid on the bed behind me and I felt him force his penis into my anus, when he entered me I felt a lot of pain. He continued to have anal intercourse with me, as he was doing this he had his arm around me fondling my penis. He started to breathe heavy. I believe he ejaculated into me at this point, because when I returned home I found a wet substance in my underpants similar to semen.

16. The next occassion I remember Simon having sex with me was in January, 1980. At this time our neighbours, Mr and Mrs REDA of REDACTED were absent overseas. I had the task of watering their garden and feeding the gold fish. One evening during this time Simon came to my parents house for dinner. Simon and myself went over to the REDACTED's house to water the garden. We went into the garage and Simon said he would do my backside. I dropped my pants down around my ankles. I laid on the garage floor on my left side. Simon spat on his hand and rubbed the spit around my anus. He then laid down behind me and pushed his penis into my anus, he continued to have intercourse with me for about five minutes before he ejaculated. I knew he ejaculated because of the noises he made, his heavy breathing, also I found a wet substance similar to semen in my under pants later. After Simon had finished he asked me to do his backside. I did not have an erection so he masturbated me with his hand, rubbing my penis up and down. I then got an erection. He laid down on the garage

floor, I laid down behind him and pushed my penis into his anus. We had intercourse like this for about five to ten minutes. I did not ejaculate. After a while Simon said nothing was going to happen so I may as well stop. After this we went back to my parents house.

17. The next occasion I remember having sex with Simon was December, 1980. I remember because it was just after the bush fires had just been through the bush at St Ives. Simon was driving me home after C.E.B.S., he drove to Acron Oval and parked the car off Acron Road. We then got out of the car and we walked across the oval and into the burnt bushland for about 50 meters. Simon asked me to drop my pants I dropped my pants down around my ankles. Simon rubbed spit around my anus, he then pushed his penis into my anus and had sexual intercourse with me whilst we were standing up. Simon ejaculated, I know this because of the noises he made and found a wet substance in my under pants later similar to semen.

18. This last incident occurred at about 10pm at night because I was then in the Esquires and we finished meetings about 9.30pm. I also remember being able to look across the valley to the next hill because of the bush being burnt by the fires. After this Simon drove me home and dropped me off at my parent house.

19. Some time after this last incident Simon attempted to have further intercourse with me but I refused and I told him I did not wish to do it again. After this I did not have any further sexual relations with Simon.

20. During the four years that Simon Jacobs was interfering with me he had me commit act of oral sex upon him. On another occasion he took polaroid photographs of me in the nude.

21. I declare that no part of this statement is untrue to my knowledge, I know that it maybe used in legal proceedings. It accurately sets out evidence which I would be prepared, if necessary, to give in court as a witness.
