

***File Note re Sexual Harassment***

On 19 August I telephoned Mr Craig Watson of Tennis NSW to ascertain the progress relating to the allegations of sexual harassment against NSWIS/State Tennis Coach, Noel Callaghan. He advised me that their solicitors were still waiting to interview witnesses relating to the allegations and that because of other commitments it may be another week before this is finalised.

In the meantime, Tennis NSW is proposing that Noel continue his coaching responsibilities although he is not to be left on a one to one basis with any athlete.

I expressed my concern to Mr Watson about this strategy and stressed it was my preferred position that Mr Callaghan be restricted to administrative duties during the investigation period.

Mr Watson advised me that he had further discussed the matter with their solicitors as well as requesting that reference be made to the Child Protection Act of NSW.
