

EM:AM

Mr. L. Wilson, Housemaster - Berry.

During a recent visit to Berry, the Superintendent stated that he understood Mr. Wilson had completed 3 years Medicine and that Mr. Wilson had convinced the Visiting Medical Officer to this effect.

I checked on Mr. Wilson's file on return and then had the Superintendent question Mr. Wilson on his training background. The report below results from this. It would appear that Mr. Wilson attempted to misrepresent his training background but has been frank when specifically questioned by the Superintendent.

Although no action against Mr. Wilson is recommended, it is felt that this, plus the Superintendent's report, should be attached to his file for record purposes.
