

CIB

CAN

I spoke with Dr Kevin Moran re medical report from Dr Czege. Dr Moran believes there is no evidence to suggest the <sup>CIB</sup> had been assaulted on reading the medical report. I noted of case work, another resident was mentioned by <sup>CIB</sup>. She made the state that this resident due to her intellectual & physical disabilities would be most unlikely. <sup>CIB</sup> is now not in the same cottage as <sup>CIB</sup>. There was some rumour that a home jett could have been the alleged perpetrator. Again there was no evidence to support the theory & his services have been terminated for other reasons & no longer works at Mate Dei.

<sup>CIB</sup> has settled down & appears quite happy. Her mother & Mate Dei undertake to advise if there are any further concerns. C.M. are taking no further action.
