Re: Request for Information under Chapter 16A

Dear Janet,

In response to your Request of Information under Chapter 16A in relation to ^{CIE} emailed to Nowra CSC yesterday and can provide the following information.

- *relevant current and/or historical concerns about safety, welfare or wellbeing of the child, young person or family* – There are not current and/or historical concerns about CIE 's safety, welfare or wellbeing.
- *current and/or past history of involvement with the child, young person and/or their family* - Community Services has had no previous engagement or contact with ^{CIE} or his family prior to a report received 21 March 2012 relating to allegations of sexual assault by Royce Comber. This plan was referred to the JIRT Referral Unit and accepted by JIRT Wollongong.
- *family/ relationship dynamics (if known)*-CIE lives at home with his parents
- *attitude of the child, young person and/ or family to agency/service involvement other details required* – As Community Services Nowra has no contact with ^{CIE} or his parents, I am unable to respond to this point.

JIRT Wollongong have had direct involvement with the family during the period 21/03/2012 until 25/10/2012. I recommend that you contact Shae Ricketts, Manager Casework on **REDACTED** should you require further information.

Yours sincerely

Dianne Neijens
Acting Manager Casework Triage and Assessment
