230957 FILE NOTE 1 DECEMBER

MATTER: ADRIAN NISBETT

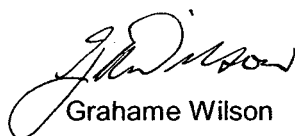

CLIENT: KNOX GRAMMAR SCHOOL

I spoke with the Headmaster. I advised him that at this stage he could inform Adrian Nisbett that there was no allegation sustained of sexual abuse. I confirmed that he could be told this and indicated to the Headmaster that people were often concerned at this prospect. I would be completing the investigation as soon as possible. I also indicated to the Headmaster that there was no increased risk shown by the investigation and that he should maintain his current direction to Mr. Nisbett.

The Headmaster indicated that he was to meet with the mother again and he appeared to indicate that this had occurred by telephone. I indicated that I was not going to attempt to contact the mother, the father or the student because I felt this may well be counter-productive for the student given the dynamics of the family situation and the separation of the mother and the father.

At that point the Headmaster indicated that he had had a conversation with the father. The father made it very clear that there would be no involvement with the investigation. The father made no different allegation to that that had been conveyed by the mother.

The Headmaster agreed with my indication that the family would not be contacted.
