Dear CAD,

As you know, soon after you made the allegations of misconduct against Professor Victor Makarov on 3 February, 2004, he reported the matter to me. Professor Makarov categorically denies the allegations and assures me that they are untrue.

In repeating our recent communications with you, I write to confirm that you were invited to meet with the Institute's Executive Committee in connection with the allegations that you have made, but that you have not responded in any manner so as to allow us to further properly investigate the matter.

Yours faithfully,

Peter Calvo
