Club Toolkit

Welcome to the Club Toolkit!

This is where *Play by the Rules* can help you get up and running with some basic policies and guidelines your club should have. An important first step is to have a Member Protection Policy. The Member Protection policy outlines how your club meets its obligations to provide a safe environment and to maintain responsible behaviour and fair decision-making. Some of the policies below rely on the Member Protection Policy to enforce compliance.

The template policies are a minimum standard, which you can use as a starting point.

Your club may wish to implement something more detailed, in which case we have provided links to other programs that you may like to review, check them out in the [resources](#) section.

If you want to use these templates as they are, simply add your club's logo, print them out, get your committee to approve and agree to implement them, then communicate them to all members of your club.
