MR. KEN DEXTER. Undoubtedly, the most energetic member of the school is Mr. Ken Dexter, who needs no introduction as Sportsmaster of Hutchins. Every student has vivid recollections of rigorous cross-countries, and getting changed and showered within three minutes!

Virtually as soon as he left school, Mr. Dexter joined the British Navy to fight in World War II. He saw action in the Mediterranean as a gunner on the "Ajax", and also served on several destroyers. During his time in the Navy Mr. Dexter represented Naval Command at both soccer and athletics.

However, Dr. Dexter's hope of a career as a professional soccer player was extinguished by a broken leg, and so he took up refereeing. He joined the Nottinghamshire Education Department as a Physical Education teacher, and then became Sportsmaster of Bluecoat Grammar School before leaving England for Tasmania.

Throughout his career, Mr. Dexter has always held an interest in youth—while in Nottinghamshire, he was a full-time youth leader as well as Physical Education teacher. He was also secretary of an amateur boxing club and a soccer club.

Mr. Dexter believes that the youth of today is too static, and must therefore find new avenues and interests. It is for this reason that Mr. Dexter holds such an interest in activities like the canoe trips which he organised.

Running parallel to his interest in youth is Mr. Dexter's interest in sport, which he inherited from a particularly sporting family. For him, the main attraction of sport is its challenge, and it is therefore the participation in the sport, no matter what nature, which is to him important. Among Mr. Dexter's favourite sports are soccer, basketball, cricket and athletics, but he enjoys others also. Mr. Dexter always insists on fair play, but he also recommends hard play and pressuring tactics as being desirable. In conclusion, we can no doubt look forward to many happy years of sport, under the guiding influence of that driving force in the black track-suit.
