

Hi Michelle

Thanks again for the productive meeting with us yesterday.

I mentioned a parent handbook that is distributed to the parents of all new swimming members across Australia each year. It was started by Swimming Queensland and is now published by Swimming Australia.

You'll see on Page 16 reference to member and child welfare. In looking at our other material, would you mind also considering whether Swimming Australia can enhance the handbook in relation to child safety.

Regards

*Leo Haymann*
