RE: AYE

to whom it may concern,

I am a professionally qualified social worker and have been working for the Rockhampton Sisters of Mercy since 1998 as the response co-ordinator for their Professional Standards office. I have previously sent a letter of support for AYE application for Level 2 payment in the Queensland Government Redress scheme.

I am now sending additional information to provide further support for AYE application. This additional information demonstrates a further victimisation suffered by AYE when his confidential court documents were released to an unrelated third party. This caused AYE significant distress at the time.

Please contact me if you require any further information.

Regards,

Anne Czokanski
