ADDENDUM STATEMENT OF
AEH

1. This statement is in addendum to the statement that I previously provided to Scott's Solicitor.
2. I was trained by Scott from 1980 to my retirement in 1986. He was my only coach during that period of time.
3. The environment in which we trained was relaxed and natural. It was very social in that family members were encouraged to be part of the swimming squad. By that I mean we would have a social life outside of the pool and all family members were encouraged to be a part of that social life.
4. I do remember Kylie Rogers and Julie REDACTED from the squad. I do not remember Simone Boyce.
5. The only thing that sticks out in my mind in relation to Julie REDACTED was that sometime, when she was in the squad, her mother was found dead in the back yard swimming pool under suspicious circumstances. I do not recall anything more than that.
6. I did on a number of occasions, when Scott was living in a caravan at the Albany Creek Road Pool, visit his caravan. At times Scott and I would be alone in his caravan and he never acted inappropriately.
7. I never, ever heard Scott speak to any person in a lewd or what I would describe as an inappropriate manner. Nor would he discuss the physical attributes of any of the female swimmers.

8. During training Scott was always on the pool deck during training sessions. I never once saw him leave the pool deck.

9. On all training sessions there would at least be a handful of parents that were present. I do not recall ever having a training session where the parents or family members or supporters were excluded.

10. I did not on any occasion remember going into the massage room with Scott as contained in the statement of Julie **REDACTED**
