

EXHIBIT TEN

Diagram of depicting massage room and sauna. Gilbert's addendum statement dated 14/1/03 at page 7, paragraph 18. Gilbert provides evidence that she remembers going with VOLKERS to the sauna where he pours water onto the coals, which smells of eucalyptus. She remains in the sauna for a period of time by herself. VOLKERS returns and checks on her, then leaves. VOLKERS returns sometime later and asks her to get onto the massage table. GILBERT states that there were tinted windows to the massage room that you couldn't see through from the outside, but you could see through from the inside. **Produced by GILBERT**
