Paul,

Inspector McCaffrey advises that over the next few weeks there is likely to be media exposure given to a large scale investigation he is managing in relation to allegations of **child paedophilia** etc. The incidents relate to sex offences that took place between **1986 and 1991** and involve a suspect by the name of **Perkins** and centre around **St. Anne's Special School**. The Catholic Church will be sending families of children that attended that school a letter that advises parents of the investigation and the willingness of the Catholic Church to hear from families that are troubled. They are also advised that if they have any information concerning such offences they should advise police by ringing Crime Stoppers 1800 333 000. This will be over the next few weeks. Can you ensure systems are in place to direct resulting IRs to Child Exploitation Investigation Unit - possibly attention Sgt Rodney. Keywords highlighted may assist in this matter. Please liaise directly with Sgt Rodney or Inspector McCaffrey if you have particular concerns. This email is intended to have the IR's directed to a particular investigating group, rather than the LSA where the victim now lives.

Thank you

Mark FAIRNEY
