

Detective Inspector McCaffrey

Please prepare for me:

1. A concise background to the events that led to Perkins' arrest in the first instance.
2. A chronology of events from the time Perkins' was first investigated to this date.
3. A spread sheet comparing allegations against police in our handling of this matter as reported in the Advertiser with the factual situation.
4. A summary of any further evidence obtained since your investigation began which supports the original charges, and the likelihood of any conviction for further offences other than those with which he is charged.
5. This document can then be used as a 'ready reference' for the preparation of briefing notes to the Commissioner and Minister, and any other responses SAPOL may need to make in relation to this matter.
