

3/3/05

[redacted]

Thanks for this memo.

I have some doubts about

the cross admissibility and

accordingly running these two victims as a joint info. However

for the time being I will sign the info. A decision will need to be made

prior to this matter being

listed. Could you have a look @ the cross admissibility aspect

and do a memo outlining the factors

which arguably do/don't give rise to the

cross admissibility aspect. In my view if

once we get all the decisions, we can't

have a strong case for cross admissibility we

should seriously consider separate trials.

P.T.O
