

29-8-07

I have signed the information.

1. By way of observation: the table as to "Cross admissibility" - or underlying unity, prepared by the PLT student is a good document & will be helpful to the prosecutor when the time comes for the inevitable severance application PTO

[Page 2]

Can I suggest you speak with [redacted] when he has a moment & ask to obtain a copy of the [redacted] chart which was prepared – it is an excellent template & may be able to be used to refine/focus/beef out the table which is currently in draft form. Of particular interest is the type of categories [redacted] has identified for "underlying unity" – which are similar to the categories on your draft chart.

2. Also, whilst on the topic of plagiarism, [redacted] gave me a copy of his outline for the [redacted] matter – whoever prosecutes this file could do a lot worse than copying large chunks of it into their outline!
