

CLF
Incident report involving and [REDACTED] - Janice Binsiar.

CLF
Today 26th February at Palleranda one of our students,
approached me to tell me of an incident that involved her and a male student

[REDACTED]

CLF told me on Thursday 23rd February [REDACTED] approached her and asked if they see each other, she said no. He kept asking her and she kept saying no. In the end he touched her breasts and private parts.

She told the other boys to tell him to go as he made her uncomfortable. When they told him, he then left. When the bell rang for supper he forced himself on her and kissed her, she pushed him away and went inside.

CLF has spoken to me after we come back from Palleranda, she said she did not tell me straight away because she was scared of the other girls, also because she felt ashamed.
