Present: REDACTED
Karen Barwick HACS
Steven Larkin's Foster Carer

Details:
REDACTED reported that AD had a great time with Steve's family. Steven indicated that he considered taking AD on fulltime, he considered the lifestyle change for himself and the things that could go not so good, however he believed that he has a good relationship with AD to over come any negative behaviour, he indicated that they will work through it. Steve did state that he had spoken to AD and that he would not just be allowed to stay at home and watch t.v, that he had to go to tafe, Aboriginal Employment for work. Steven said that AD agreed to go to tafe to finish year 10 certificate. Steve stated that AD needed to learn skills to become independent with living skills and believed that he was able to provide that guidance to AD.
REDACTED wanted to know when Steve could take AD. Steven indicated that if REDACTED workers spoke to AD and he wanted to live with him then today, it was up to AD

P/c from REDACTED, REDACTED indicating that she had spoken to AD and he was so excited to live with Steven fulltime, and wanted to commence the placement today.
