**Attachments:** Laguna Street PS-OOSH Licence.Jan.09.doc

Dear Nick

The YMCA lease at Laguna St PS is due for renewal in January 2012. I have attached a copy of the existing lease. Could you please look at it and tell me if it is still usable / suitable? In the Child Protection section, I would like to include a note requiring YMCA to provide details to me listing all staff on site and their Child Protection training currency. I would also like to include a note that creates a procedure to resolve complaints or issues that need rectification. For example, YMCA policies state that there should be at least 2 Child care workers on site at all times. I have been advised by a parent that this is not always the case. Please call me if you wish to discuss this issue. I should advise you that a YMCA worker who has worked at LSPS has been charged by police in regard to child protection issues. This, and YMCA's response and policies are cause for considerable community disquiet in Caringbah at present. I would value your prompt attention to this matter.

I have cc'd this to Helen Wyatt, Port Hacking SED.

*Cheers*
