Subject: Fw: New Victim

Hi all,

I read Matt's report last night and realised we already had this victim. I don't know if it is possible to interview him today, I'll leave you guys to prioritise that. Having said that, the mother said that they have been close family friends for a number of years. In my opinion she would be a good person to keep on side. She starts a new job on Monday hence why she was trying to get her son in for an interview. Either way could someone please make contact with her.

The boss, Georgie Wells, FaCS JIRT Director David (somebody), Liam Whitley and the CEO of YMCA Australia and I had a teleconference yesterday. They are going to send out the communication to families that I sent to you all yesterday as a confidential draft. The boss did a fantastic job trying to prevent a public meeting which they haven't given up on but for the time being will delay. 

As the day progresses can we please monitor status of Lord in case we are forced to jump. Obviously I have been selling the idea to the boss that we are trying to interview as many children as possible to get a number of charges with the view to having him bail refused by weight of number of charges and number of victims. Having said that we may be forced to charge Lord again today, lets see how that goes.

I suppose we have to keep in the back of our minds that due to the nature of the charges, his lack of criminal history and now his apparent psych illness/self harm issues a magistrate may find it easier to give him bail and his family can fund private psych hospital. We can't control that. Leanne all you can do is keep the victims rolling in. You're doing a great job with the victims, families etc.

I briefed Matt last night. Matt has done a great job shaping that draft report into something that can be submitted. I'll do that today. I'm not optimistic but the boss will put our case forward for more staff and a strike force to the Director Ch/Supt Peter Cotter. As JIRT statewide has drained 30+ staff from SCC in the last few weeks he may say that we will have to run it ourselves. Hopefully they seek an agreement with the LAC's (Miranda and Sutherland) to give us additional staff.

You're all doing a great job guys.

Thanks, Glyn

PS Leanne. Can you please have a chat with the lovely Sandy about your secondment. I need to square an extension away with your LAC, from discussions I know you are more than happy to stay on

this job and it sounds like the LAC are supportive but we need to firm that up.

 Subject: New Victim

Hi all,

I received a call in the office this evening. I will expand in the morning but the JRU will have this job by tomorrow.

In summary it is another victim.

█ family are close family friends of the Lord family. Mum can also provide some intel re: USA Camp America and another child in Fiji that Lord got close to.

Child:

AQ
 born █

Disclosed Lord touched his penis on multiple occasions whilst at their old family home of █ within the last 12 months

Mother:

AY
 █
 ph █

There are 2 older siblings approx █ who have denied being assaulted but mum is suspicious. She is staying home tomorrow and really wants the child interviewed tomorrow Friday 21/10/2011. I told her that it may not be possible as I would need to check availability of interview suit etc.

They will be attending their local Police station tonight to report. So a COPS event will be created hopefully this evening and a Helpline referral.

Thanks,
Glyn
