Dear Michael

Re: The Anglican Church's devious and cruel concealment of documented proof of Duty of Care and the Abuse of over 100 children in the Church of England North Coast Children's Home, Lismore.

Thanks for your letter of date unknown which I received on November 30, 2010. I did not expect to ever hear from you again; however I do have a few comments to make.

Because of the deliberate and revolting lies of Keith Slater and that deceitful Pat (nasty) Comben; aided and abetted by Phillip (fence-sitter) Aspinall and Peter (don't blame me) Jensen, and an abundance of other lying and cheating grubs, I doubt if I will ever find the "peace and happiness" noted in your letter.

Just to write their name makes my mouth sour and creates a hollow in my belly as big as Christmas pudding.

The disgusting actions of those "men of God" to the people who were abused in their own Home can only be classed as the work of scumbags. (I need not explain the church's actions again)

I was trounced by Slater and his cohorts because I was weak, down-trodden and poor and because they repeatedly lied to save their neck and the workings of the church. (Not a day passes that I don't give myself an uppercut for succumbing to the church's demands by signing the Deed of Release. Bugger!).

As I have discovered more information, there is a much more to be said about Slater and his cronies. Shortly after Christmas, I intend to start a new assault. I will try not to disparage them or break the rules of the Deed of Release. I also ask that you continue your investigation into the lies of the Anglican Church for CA and I.

I ask you Michael, if you and your sister were brutally abused in an Anglican home and 100 other children were also viciously abused, many right before your eyes, and at the age of eight the Anglican Church gave your sister away (like you would a dog in a pound) to a wicked couple with seven children and used as a baby sitter, a cook, a cleaner and they wouldn't allow her to see you for seven years. And the Anglican Church who is clearly documented and approved by DOCS and Section 28 of the Child Welfare Act as having the license to run the Home, cast the abuse and the responsibility of duty of care on a group of unidentified people in the Lismore community so they could escape the blame, wouldn't you want the truth to be known?

I also wish you a happy Christmas with your family and a successful 2011. I will pass your wishes of goodwill on to my sister, CA

Regards,

Tommy Campion
