On the 30.5.13 I reviewed some historical files.

in 2013 REDACTED admitted to John Cleary about falsifying the retirement date of Rev'd REDACTED following his arrest and charging for child sex offences in order to avoid him being listed as a current member of clergy at the time the offences occurred.

It appears from files on the Allan KITCHINGMAN file that the same thing occurred with him (ie; records amended, yearbook falsified). Someone even sent a supposedly anonymous letter to the dio warning them about this practice.

It's possible REDACTED was also involved in the falsification of the KITCHINGMAN records which also lends credibility to allegations he falsified records relating to the criminal trial of Rev REDACTED that lead to the withdrawal of those proceedings.

A further note of interest from KITCHINGMAN's file is that whilst serving in the Newcastle Diocese he had made application to adopt a child. Known paedophiles REDACTED in gaol) and Peter RUSHTON (deceased) had also fostered boys from the St Albans Children's home. It appears that KITCHINGMAN likely connections with known paedophiles such as RUSHTON and REDACT (all 3 served as priests of Wallsend Parish).
