Dear Mr DG,

I am replying to your letter of 29 January, 2000 which only arrived here at Drummoyne on 6 March (last week). I was very saddened to read of your experiences and the problems that have resulted from them. That such events could have occurred is the very antithesis of what we aspire to as Marist Brothers.

The Towards Healing Resource Group in Brisbane do provide a mediation facility which we could look at. Alternatively, you may have a solicitor acting for you.

Perhaps you could contact me to discuss how we might best go forward to look at some form of resolution of these painful issues from the past.

I wish to assure you that I do take your statement seriously and that I will endeavour to assist in the process of bringing matters to a satisfactory resolution.

I look forward to hearing from you.

Yours sincerely,

Michael Hill FMS
